

IN THE CLAIMS

1-20. (Canceled)

21. (New) A biliquid foam comprising from 10% to 98% by weight of a non polar liquid other than a fuel and from 2 to 88% by weight of a continuous phase polar liquid comprising a C₁-C₄ alcohol, a liquid polyethylene glycol, ethylene glycol or propylene glycol, or mixtures thereof, in an amount of at least 65% by weight, relative to the weight of the continuous phase, wherein the biliquid foam is stabilized with an amount of from 0.05% to 2% by weight based on the total formulation of a surfactant which is selected from castor oil /poly (alkylene glycol) adducts containing from 20 to 50 alkoxy groups, a C₈-C₂₄ fatty acid or hydrogenated castor oil/poly(alkylene glycol) adducts containing from 20 to 60 alkoxy groups, or mixtures thereof.

22. (New) A biliquid foam as claimed in claim 21, wherein the amount of surfactant is about 1% by weight based on the total formulation.

23. (New) A biliquid foam as claimed in claim 22, wherein the surfactant comprises a hydrogenated castor oil/polyethylene glycol adduct containing from 40 to 60 ethoxy groups.

24. (New) A biliquid foam as claimed in claim 22, wherein the surfactant comprises a castor oil/poly (alkylene glycol) adduct containing 25 to 45 ethoxy groups.

25. (New) A biliquid foam as claimed in claim 22, wherein the non-polar liquid comprises a mineral oil, a siloxane, an emollient ester, a glyceride, a lanolin oil, a natural oil, oleyl alcohol, isoeicosane or isooctahexacontane, or mixtures thereof.

26. (New) A biliquid foam as claimed in claim 25, wherein the siloxane comprises dimethicone, cyclomethicone, dimethiconol, dimethicone copolyol, octamethylcyclotetrasiloxane, octamethylcyclopentasiloxane, decamethylcyclopentasiloxane, or mixtures thereof.

27. (New) A biliquid foam as claimed in claim 26, wherein the emollient ester is isopropyl isostearate, lanolate, myristate or palmitate, or octyl palmitate, or mixtures thereof.

28. (New) A biliquid foam as claimed in claim 21, wherein the surfactant comprises a hydrogenated castor oil/polyethylene glycol adduct containing from 40 to 60 ethoxy groups.

29. (New) A biliquid foam as claimed in claim 21, wherein the surfactant comprises a castor oil/poly (alkylene glycol) adduct containing 25 to 45 ethoxy groups.

30. (New) A biliquid foam as claimed in claim 21, wherein the polar liquid is aqueous and comprises from 70% to 99% by weight of the C₁-C₄, alcohol, liquid polyethylene glycol, ethylene glycol or propylene glycol, or mixtures thereof.

31. (New) A biliquid foam as claimed in claim 21, wherein the non-polar liquid comprises a mineral oil, a siloxane, an emollient ester, a glyceride, a lanolin oil, a natural oil, oleyl alcohol, isoeicosane or isooctahexacontane, or mixtures thereof.

32. (New) A biliquid foam as claimed in claim 31, wherein the siloxane comprises dimethicone, cyclomethicone, dimethiconol, dimethicone copolyol, octamethylcyclotetrasiloxane, octamethylcyclopentasiloxane, decamethylcyclopentasiloxane, or mixtures thereof.

33. (New) A biliquid foam as claimed in claim 32, wherein the emollient ester is isopropyl isostearate, lanolate, myristate or palmitate, or octyl palmitate, or mixtures thereof.

34. (New) A stable dispersion having a content of C₁-C₄ alcohol, a liquid polyethylene glycol, ethylene glycol or propylene glycol, or mixtures thereof, of at least 65% by weight, which dispersion comprises from 1 to 80% by weight of a biliquid foam as claimed in claim 21, and from 99 to 20% by weight of an aqueous gel.

35. (New) A stable dispersion as claimed in claim 34, wherein the aqueous gel constitutes from 50 to 99% by weight thereof.

36. (New) A stable dispersion as claimed in claim 34, wherein the aqueous gel comprises a colloidal polymer or gum suspended in water.

37. (New) A stable dispersion as claimed in claim 34 which includes therein at least one pharmaceutical or cosmetic compound therein.

38. (New) A process for preparing a stable dispersion which comprises from 1 to 80% by weight of a biliquid foam as claimed in claim 21, and from 99 to 20% by weight of an aqueous gel, which process mixing together the biliquid foam and the aqueous gel.

39. (New) A process as claimed in claim 38, wherein the stable dispersion also comprises a pharmaceutical compound.

40. (New) A process as claimed in claim 39 in which the stable dispersion is in a topical form for application to the skin and contains a non steroidal anti-inflammatory drug, an anti-acne compound, anti-viral or anti-bacterial compound.

41. (New) A process as claimed in claim 40 in which the stable dispersion is in the form of a transdermal delivery device or in a cream or gel preparation and which contains nicotine, estradiol, nitroglycerin, testosterone or scopolamine as the active ingredient.

42. (New) A process as claimed in claim 38, wherein the stable dispersion also comprises a cosmetic compound.

43. (New) A process as claimed in claim 42 in which the stable dispersion is an anti-cellulite cream or an aftershave lotion.

44. (New) A process as claimed in claim 38, wherein the stable dispersion also comprises a disinfectant compound.
